CONTENTS

BEDNÁŘ, O. et al.: Note on the Mechanism of Formation of Binucleate and Multinucleate HeLa Cells 82
BOTH DE, N. J. The Regeneration Territories. A Critical Note . . 177
DOSTÁL, M. and R. JELÍNEK: Morphogenesis of Cleft Palate Induced by Exogenous Factors. I. The Sensitivity Period after the Administration of Cortisone 88
DOSTÁL, M. and R. JELÍNEK: Morphogenesis of Cleft Palate Induced by Exogenous Factors. IV. Comparison of the Effect of Hydrocortisone Administered to the Pregnant Female with Direct Injection into the Amniotic Sac of the Mouse Embryo 214
DRUGA, R.: Projection of Prepyriform Cortex into Claustrum . . 405
FIALA, J.: On the Morphology of the Blood Picture in the White Mouse 345
FRIANT, M.: Le Cerveau des Damans *(Procaviidae)* 147
FRIANT, M.: A Propos des Molaires d'un Insectivore *(Erinacéidae)* 198
FRIANT, M.: L'Évolution des Molaires des Suidae et des Elotheriidae *(Ongulés artiodactyles bunodontes* d'Europe) 318
GRIM, M.: Development of the Primordia of the Latissimus dorsi Muscle of the Chicken 252
GUPTA, O. P.: The Distribution of the Lateral Line Canals of the Head in *Xenentodon cancila* Ham 160
HEŘT, J. et al.: Reaction of Bone to Mechanical Stimuli. Part 1. Continuous and Intermittent Loading of Tibia in Rabbit 290
HEŘT, J. et al.: Reaction of Bone to Mechanical Stimuli. Part 5. Effect of Intermittent Stress on the Rabbit Tibia after Resection of the Peripheral Nerves 378
HORKÝ, D. and J. TOMAN: Effect of Actinomycin D on the Submicroscopic Structure of the Exocrine Cells of the Adult Pancreas 51
HROMADA, J. (†) et al.: Relationship of Different Types of Branching of the Coronary Arteries of the Human Heart of the Origin of the Principal Atrial Artery, Sex and Age 337
JELÍNEK, R. et al.: Syndrome of Caudal Regression and Dysraphic Malformations of the Spinal Cord 58
JIRSOVÁ, Z. et al.: Cytology of Tubal Epithelium. III. 401
JOURA, V.: Area Values of the Eustachian Valve and Their Interrelations 187
KRAUSOVÁ, H. and R. KRAUS: Prenatal Development of Leydig Cells in Man 205
KORČÁKOVÁ, L.: Mitotic Division and Its Significance for Regeneration of Granulated B-Cells in the Islets of Langerhans in Alloxan-Diabetic Rats 24
KLIKA, E.: The Demonstration of the Osmiophilic Lining Layer of the Pulmonary Alveolus Fixed in Situ 132
KLIKA, E. and R. JELÍNEK: „Glass-Bell-Like" Formations as Modified Cellular Junctions in the Developing Neural Tube and Ectoderm of the Chick Embryo 137
KLIKA, E. and A. MYSLIVEČKOVÁ: Ultrastructur Changes Produced by Diphosgene in the Air-Blood Barrier in the Rabbit 5
LIŠKOVÁ, M. and J. HEŘT: Reaction of Bone to Mechanical Stimuli. Part 2. Periosteal and Endosteal Reaction of Tibial Dyaphysis in Rabbit to Intermittent Loading 301

MALINOVSKÝ, L. and R. ZEMÁNEK: Sensory Innervation of the Skin and Mucosa of Some Parts of the Head in the Domestic Fowl 18
MANINA, A. and R. KUCHERENKO: Submicroscopic Changes in Synapses of the Nervous System 259
MITROVÁ, E.: A Karyometric Study of the Experimentally Synchronized Rhytm of the Glandula orbitalis externa in the Albino Rat . . . 329
MRÁZKOVÁ, O. and L. PUZANOVÁ: The Capillary Bed in Denervated Muscle 71
MRÁZKOVÁ, O. and I. DYLEVSKÝ: The Tensor aponeurosis plantaris-a New Muscle in the Rat Limb 352
NEČAS, O. and J. KARÁSEK: Our Experiences with the Preparation of Specimens for Electron Microscopy by the Freeze-Fracture Replication Method 1
PÁČ, L. and J. MALÝ: Sensory Nerve Endings in the Internal Skeleton of the Paired Fins of Some Members of the Carp Family *(Cyprynidae)* 411
PLAČKOVÁ, A. et al.: Ultrastructure of Surface Cells of the Oral Mucosa 165
PRESL, J. et al.: Evidence for Human Chorionic Gonadotropin Binding Sites in Some Organs of the Immature Female Rat. Effect of Non-Labelled Chorionic Gonadotropin and Follicle-Stimulating Hormone on the Distribution of ^{125}I-Labelled Human Chorionic Gonadotropin 171
PŘIBYLOVÁ, E. and J. HEŘT: Proliferation Zones in Articular Cartilage of Young Rabbits 233
RAJTOVÁ, V. and P. POPESCO: Morphogenesis of the Pelvic Limb Metapodium of the Sheep *(Ovis ammon f. aries* L.) and the Goat *(Capra aegagrus f. hircus* L.) 154
RAJTOVÁ, V.: Morphogenesis of the Tarsus of the Sheep *(Ovis ammon f. aries* L.) and the Goat *(Capra aegagrus f. hircus* L.) 394
RYCHTER, Z. and R. JELÍNEK: Shape and Location of Non-Vascularized Area of Ventricular Wall in Chick Embryo during Terminal Phase of Development of Vessels Sypplying Blood to Myocardium 45
RYCHTER, Z. and B. OŠŤÁDAL: Fate of „Sinusoidal" Intertrabecular Spaces of the Cardiac Wall after Development of the Coronary Vascular Bed in Chick Embryo 31
RYCHTER, Z. and B. OŠŤÁDAL: Mechanism of the Development of Coronary Arteries in Chick Embryo 113
RYCHTER, Z. and M. DOSTÁL: Development of Vascularization of the Secondary Palate of the Mouse Embryo 273
RYCHTEROVÁ, V.: Principle of Growth in Thickness of the Heart Ventricular Wall in the Chick Embryo 262
ROMANOVSKÝ, A. et al.: Development of Muscle Specific Proteins in Amphibian Embryos as Studied by Means of Antisera against Total Muscle Extract and Immunofluorescence 415
SEICHERT, V. and Z. Rychter: Vascularization of the Developing Anterior Limb of the Chick Embryo 367
STINGL, J.: Architectonic Development of the Vascular Bed of Rat Skeletal Muscles in the Early Postnatal Period 208
TRÁVNÍK, P.: The Use of Thallium Ions in Alkaline Medium for Staining in Electron Microscopy 358
VELICKÝ, J.: Morphology of the Parafollicular Cells and Their Relationship to the Other Endocrine Tissues of the Thyroid. II. Observations in the Sheep, Rabbit and Cat Thyroid 97
VELICKÝ, J.: Morphology of the Parafollicular Cells and Their Relationship to the Other Endocrine Tissues of the Thyroid. III. Experimental Exogenous Hypercalcaemia and Hypocalcaemia 105
VELICKÝ, J.: Morphology of the Parafollicular Cells and Their Relationship to the Other Endocrine Tissues of the Thyroid. IV. Experimental Administration of 4-Methyl-2-thiouracil 125
VELEANU, C.: Vertebral Structural Peculiarities with a Role in the Cervical Spine Mechanics 388
VIKTORA, L.: Morphological Changes in the Spleen of Irradiated Mice Nine Days after the Transplantation of Homologous Bone Marrow . . 182
VIKTORA, L. et al.: Morphological Changes in the Spleen of Lethally Irradiated Mice Nine Days after the Transplantation of Spleen Homogenates (Fresh and Stored for Different Lengths of Time) 361
WOLF, J.: Tertiary Relief of the Skin Surface, Its Development and Significance 242
